## INDUSTRIES

- Consumer Packaged Goods
- Alcoholic Beverages
- Industrial Manufacturing
- Food Grade Products
- Chemical

# SUPPLY CHAIN SOLUTIONS

## YOUR IMMEDIATE BENEFITS

- Improved Operational Efficiency
- Faster Product Delivery Cycles
- Full Technology Integration
- Continuous Improvement
- Dedicated Professionals
- Reduced Overhead

### BUSINESS ANALYSIS

CRC conducts an end-to-end analysis of your existing supply chain to gather a comprehensive understanding of your network, from production facilities and transportation routes to material needs and distribution channels.

### 360 OPTIMIZATION

Drawing from decades of industry knowledge and experience, we develop plans that eliminate the redundancies in your supply chain, decrease your transportation and storage costs, and mitigate risk.

### IMPLEMENTATION

From raw materials to retail, CRC matches carriers with shipments, coordinates inbound & outbound logistics, and provides secure and reliable warehousing space with customizable inventory control.

### CONSTANT IMPROVEMENT

The CRC Logistics team continuously evaluates your supply chain against industry trends and conditions. We provide flexible solutions tailored to achieve your business objectives and promote your long-term growth.

CRC provides breakthrough supply chain management solutions that generate cost savings, drive constant efficiency, and create lasting growth.

# TRANSPORTATION SOLUTIONS

CRC combines cutting edge technology with a global carrier network to provide transportation solutions that always deliver—across your city or across the globe.

## CARRIER SELECTION

From air to ocean, rail to road, CRC matches the right carriers with the right shipments at the right price — so you can focus on your business.

## TRANSPORTATION CAPABILITIES

CRC monitors industry trends and switches transportation modes on the fly so you always get the best rates, best routes, and best service from your carriers.

**Temporary Surges in Demand**  
**Real-Time Monitoring**  
**Continuous, Repeating Routes**

## SPECIALIZED CARGO

From raw materials to refrigerated goods, CRC's in-house resources and extensive carrier network can accommodate all of your cargo handling needs.

**Trailers, Containers and Chassis**  
**Flatbeds and Lowboys**  
**Refrigerated and Bulk Tankers**

## GLOBAL LOGISTICS

CRC handles international shipping documentation for your cargo, represents your interests during customs examinations, and pays duty fees on your behalf, so your shipments avoid costly delays from red tape regulations.

## SHIPMENT TRACKING

Our technology detects problems in real-time so we can solve them in real-time. CRC tracks your freight from origin to destination, enabling us to adapt to changing circumstances as they arise, not after the fact.

## REAL-TIME ANALYTICS

## INSURANCE CLAIMS

If your cargo is ever lost, damaged, or stolen, CRC navigates the maze of filing requirements, forms, and phone calls to get you the compensation you deserve.

# WAREHOUSING SOLUTIONS

CRC provides comprehensive storage solutions with a worldwide network of 60+ warehousing facilities, team of site selection analysts, and design, construction, and renovation experience.

## STORAGE SOLUTIONS FOR EVERY INDUSTRY

Dedicated or Shared Space  
Short or Long-term Lease  
US Customs Bonded Space

Bulk and Racked Storage Options  
Specialized Storage and Handling  
Site Selection Services

60+  
FACILITIES

20,000,000  
SQUARE FEET OF STORAGE

### SITE SELECTION SERVICE

CRC's selection team evaluates your inventory needs and distribution network against facility availability, rates, and features in order to select optimal warehousing locations that scale with your business.

Research Available Listings  
Negotiate Sales Agreements

### FACILITY CONSTRUCTION

When existing facilities are unsuitable for your inventory or you need immediate expansion, CRC has the resources to convert, design, or build a new facility that meets your storage and warehousing needs.

Renovate & Optimize  
Facility Design + Build

# INVENTORY SOLUTIONS

Whether CRC handles a portion of your inventory or the entire stock, we provide customized inventory management solutions built to grow with your business needs.

## INVENTORY MANAGEMENT

We evaluate your products, material flow, and supplier network to optimize your warehouse layout, save space, and improve turnaround time. Using state-of-the-art technology, our experienced staff inspects and processes your inbound and outbound shipments accurately, quickly, and safely so your goods get where they need to go —on-time and error-free.

---

- Inventory Control & Accounting
- Cloud-based, Real Time Access
- Layout & Space Optimization
- Picking & Order Fulfillment
- Receipt & Inspection
- Material Handling
- Reporting

---

- Temporary Labor
- Just-In-Time Systems
- Seasonal Accommodations
- Scale Up and Down Staffing

## CONTRACT PACKAGING

From the refinery to the retail shelf, CRC has the skills and resources to optimize your product packaging from top to bottom. Our bulk and retail packaging solutions reduce transportation and warehousing expenses while maximizing sales, so you can grow your business without raising your overhead.

## ON DEMAND STAFFING AND STORAGE

CRC's flexible support team helps you evolve and respond to all fluctuations in consumer demand, high carrying costs, and just-in-time inventory systems that stretch your capacities. When you need extra hands on deck to get your products to market, we operate as a seamless extension of your core business.
